X-01 **Contact Number** *

Please assign a sequential number to this contact. Where the main forms A-E ask for a contact, please provide this contact number.

Example: Assume this is the contact form to provide the details of Mr John Doe. In our example, he is the "main administrative registration contact" as well as the "main participant contact". You assign the contact number "1" to John Doe in the field directly below. When asked for the contact details of those two contacts in the "General Administration and Invoicing Form (A)" and in the "Participant Registration Form (B)", you simply write "1" in both cases. Thus, you only have to record Mr John Doe's details once, instead of repeatedly entering the information on several forms.
